AMENDMENTS TO THE SPECIFICATION

Please add the following paragraph after paragraph [0052] in the Specification;

It will be further recognized by those skilled in the art that a machine readable medium can encompass a program that can be executed by a machine to perform the method steps for coordinating a conference, where the method steps may include transmitting a conference initiation request to a conference server over a computer network, receiving a conference code from the conference server in response to the conference initiating request over the computer network, generating an audio signal representative of the conference code, and transmitting the audio signal to at least one conference endpoint over a conference bridge.
